These proceedings, consisting in two volumes, contain the papers emerged from the Tenth Brainstorming Week on Membrane Computing (BWMC), held in Sevilla, from January 30 to February 3, 2012, in the organization of the Research Group on Natural Computing from the Department of Computer Science and Artificial Intelligence of Sevilla University. The first edition of BWMC was organized at the beginning of February 2003 in Rovira i Virgili University, Tarragona, and all the next editions took place in Sevilla at the beginning of February, each year.

The 2012 edition of BWMC was organized in conjunction with the First International Conference on Developments in Membrane Computing (ICDMC2012).

In the style of previous meetings in this series, the tenth BWMC was conceived as a period of active interaction among the participants, with the emphasis on exchanging ideas and cooperation. Several “provocative” talks were delivered, mainly devoted to open problems, research topics, conjectures waiting for proofs, followed by an intense cooperation among the 40 participants – see the list in the end of this preface. The efficiency of this type of meetings was again proved to be very high and the present volumes illustrate this assertion.

Slightly different from the previous meetings was the combination with the ICDMC2012, in the sense that several talks also had the style of a conference: more time dedicated to presenting achievements obtained by the research groups from where the participants came from, but also converging towards the style of the brainstorming, i.e., presenting frontier results, research topics, ongoing applications.

The papers included in these volumes, arranged in the alphabetic order of the authors, were collected in the form available at a short time after the brainstorming; several of them are still under elaboration. The idea is that the proceedings are a working instrument, part of the interaction started during the stay of authors in Sevilla, meant to make possible a further cooperation, this time having a written support.
Selections of the papers from these volumes will be considered for publication in special issues of *Theoretical Computer Science* and of *International Journal of Computer Mathematics*.

After each BWMC, one or two special issues of various international journals were published. Here is their list:

- **BWMC 2005**: *International Journal of Foundations of Computer Science* – volume 17, number 1, 2006);
- **BWMC 2008**: *Fundamenta Informaticae* – volume 87, number 1, 2008;
- **BWMC 2010**: *Romanian Journal of Information Science and Technology* – volume 13, number 2, 2010;

Other papers elaborated during the tenth BWMC will be submitted to other journals or to suitable conferences. The reader interested in the final version of these papers is advised to check the current bibliography of membrane computing available in the domain website [http://ppage.psystems.eu](http://ppage.psystems.eu).

***

The list of participants as well as their email addresses are given below, with the aim of facilitating the further communication and interaction:

1. Artiom Alhazov, University of Milano - Bicocca, Italy, aartiom@yahoo.com
2. Ioan Ardelean, Institute of Biology of the Romanian Academy, Bucharest, Romania, ioan.ardelean57@yahoo.com
3. Mari Angels Colomer Cugat, University of Lleida, Spain, colomer@matematica.udl.cat
4. Erzsébet Csuhaj-Varjú, Faculty of Informatics, Eötvös Loránd University, Budapest, Hungary, csuhaj@inf.elte.hu
5. Rudolf Freund, Technological University of Vienna, Austria, rudifreund@gmx.at
6. Manuel García-Quismondo Fernández, University of Seville, Spain, mgarciaquismondo@us.es
7. Marian Gheorghe, University of Sheffield, United Kingdom, m.gheorghe@sheffield.ac.uk
8. Carmen Graciani Díaz, University of Seville, Spain, cgdiaz@us.es
As mentioned above, the meeting was organized by the Research Group on Natural Computing from Sevilla University (http://www.gcn.us.es)– and all the members of this group were enthusiastically involved in this (not always easy) work.

The meeting was supported from various sources: (i) Proyecto de Excelencia con investigador de reconocida valía, de la Junta de Andalucía, grant P08 – TIC 04200, (ii) Proyecto del Ministerio de Educación y Ciencia, grant TIN2009 – 13192, (iii) Instituto de Matemáticas de la Universidad de Sevilla (IMUS), (iv) Consejería de Innovacion, Ciencia y Empresas de la Junta de Andalucía, as well as by the Department of Computer Science and Artificial Intelligence from Sevilla University.
