Categoría:		Tiempo estimado:	12.00 horas
Versión prevista:			
Descripción			
Several errors were found in the functioning of different functionalities, mainly in the reload of some information after opening, saving or setting model. In addition, an older bug was fixed, related to the behaviour of the reassignment of models, not refreshing the default or selected simulation algorithm properly.			
All the detected bugs are fixed in the last version of MeCoSim .
